MONTANA

THE NEW MONTANA **TECH** SPRAYS

CLEAN, PRIME & SEAL PROFESSIONALLY

The Montana TECH series offers different sprays as a perfect addition to Montana color and effect sprays. Besides three Varnishes there are now four special Primers for professional pre-treatment of different surfaces. ACETONE spray serves as a thinner or cleaner. Montana REMOVER can be used to remove paint residues from concrete and other surfaces. A further new innovation are the Montana ADHESIVES, which are offered in both permanent and repositionable (great for use with stencils and patterns). Endless possibilities of new techniques and effects can be achieved using the TECH sprays and Montana GOLD together!

POLYSTYRENE PRIMER

TNR: 376337

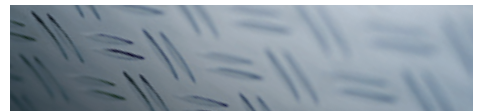

The Montana Polystyrene Primer provides an additional (protection) layer on Polystyrene, which makes varnishing with acid free paint possible. The primer seals the styrofoam and avoids a destructive reaction of the lacquer. Always test before using on a non-visible area of the object. Available as 400ml.

METAL PRIMER

TNR: 376320

The new Montana Metal Primer - a quick drying primer for the perfect pre-treatment of metal surfaces that need to be protected from rust. The primer can be used on metals like iron, steel or mineral surfaces. Montana Metal Primer can be used on Montana sprays with a synthetic, acrylic, or nitro-combination base. Available as 400ml.

UNIVERSAL PRIMER

TNR: 376313

The Universal Primer also works on leather, cardboards, wood and many other materials. After the Primer has been applied you can work with Montana spray paints on the pre-treated area. Easy to apply, sand and re-coat. For indoor and outdoor applications. Available as 400ml.

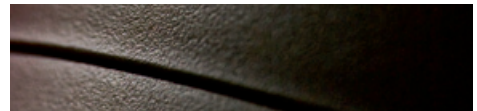

PLASTIC PRIMER

TNR: 376344

Montana Plastic Primer is the perfect pre-treatment for plastic surfaces. After priming and drying, plastic surfaces can be painted with Montana sprays that have a synthetic, acrylic, or nitro-combination base. Available as 400ml. Can be used with the following types of plastic:

Polypropylene Rubber, Modified (EPDM),
Acrylic Butadiene Styrene Plastics (ABS), Glass-Fibre Reinforced
Plastics (GfK), Hard Polyvinyl Chloride (Hard-Pvc),
Polyurethane (PUR), Polystyrene (PS), Polyamide (PA)

PRIMER SPRAYS 400ML

PROFESSIONAL SURFACE TREATMENT

Montana PRIMER sprays enable excellent adhesion and further coating of synthetic, nitro-combi or acrylic spray paints. Montana offers different primers for application on different surfaces that need to be pre-treated such as plastic, metal and styrofoam. The Universal Primer also works on leather, cardboards, wood and many other materials. After the Primers have been applied you can work with Montana spray paints on the pre-treated area. Use Primers for efficient and more permanent results. Easy to apply, sand and re-coat. For indoor and outdoor applications. Available as 400ml.

ACETONE
PAINT-THINNER
& CLEANER

REMOVER
PAINT-STRIPPER,
ACID-FREE

ACETONE SPRAY 400ML

CLEANING AGENT & THINNER

Montana ACETONE spray is a universal thinner and cleaning agent that is transparent in color. Removes residues of paint, lacquer, silicone, wax, tar, and can be used for de-greasing. Suitable for pre-treatment before painting objects or to remove paint residues after painting. Can be used on porcelain, glass, ceramics, blank metals and others. Evaporates quickly without leaving residues. Non-corrosive. Available as 400ml.

ACETONE

TNR: 376382

REMOVER SPRAY 400ML

PAINT STRIPPER

Pollution free etching spray for most usual types of lacquer. Montana REMOVER spray dissolves and removes lacquers quickly and thoroughly. Do not use on cars! Application is possible on many surfaces such as walls, clay bricks, stone, concrete surfaces, marble, asphalt, glass, metal and wooden surfaces. It becomes a gel-like consistency, to keep from running off vertical surfaces. Application on non-ferrous metals might cause discoloration. Content is ph-neutral / acid-free. Available as 400ml.

REMOVER

TNR: 376290

VARNISH
UV-PROTECTIVE
& ACID-FREE

DUSTCLEAN
COMPRESSED-AIR SPRAY.
IDEAL FOR HARD TO REACH
& SENSITIVE SURFACES

VARNISH SPRAY 400ML

UV-PROTECTION

Acid-free, quick drying, clear varnish made of acrylic base. No yellowing or de-saturation. For interior and exterior use. Can be used for art, hobby, crafts and DIY projects. Available in gloss, semi-gloss and matte finish. Gloss level shown on donut (see top of can). Protects and fixes paint on surfaces like canvas, paper, charcoal drawing, bast fibre, wood, photos, etc. Protects against oxidation. Available as 400ml.

VARNISH Gloss	TNR: 376351	VARNISH Semi-Gloss	TNR: 376368
VARNISH Matt	TNR: 376375		

DUSTCLEAN SPRAY 400ML

COMPRESSED AIR

Montana DUSTCLEAN spray is a compressed aerosol spray for the easy removal of dust and loose dirt from sensitive or hard to reach surfaces, using high pressure. This spray can also be used to clean objects prior to final sealing – with varnish for example. The strong, direct spray output cleans effectively, perfect for interior use.

DUSTCLEAN	TNR: 376399
-----------	-------------

ACID-FREE
PERMA-NENT
ADHESIVE SPRAY

ACID-FREE
REPOSITIONABLE
ADHESIVE SPRAY

ADHESIVE SPRAY 400ML

PERMANENT / REPOSITIONABLE

Montana ADHESIVE spray is an acid-free spray glue consisting of a synthetic base with solvents for permanent adhesion. Suitable for most materials like foam, jute, felt, textiles, insulating material, expanded polystyrene, plastics, foils, paper, cardboard, wood and to adhere inlays. Not suitable for use with artificial leather or other materials with plasticizing agents or softeners (e.g. plasticized PVC). Always test before use. Can be applied to one or both surfaces to be adhered. Final adhesion strength is reached after 24 hours. Can be applied in a temperature range of -10°C (14F) to 50°C (122F) subject to materials used and their weights. Does not bleed through when used on textiles. Suitable for craft & paperwork. Clean and efficient when applied over small or large areas. Available as 400ml and 150ml.

Montana ADHESIVE spray repositionable allows repositioning and re-application for textiles and other materials such as foam material, photos, paper, cardboard, wood, plate and expanded polystyrene (to a limited extent). Not suitable for use with artificial leather or other materials with plasticising agents or softeners (e.g. plasticized PVC). Adheres inlays to each other. Always test before use, especially when used with heavy materials. When used in textile printing make sure that the adhesive is not transferred from table to textiles. Great for large areas. Available as 400ml and 150ml.

ECO-FRIENDLY

CHALKSPRAY 400ML

ECO-FRIENDLY CHALK PIGMENT PAINT

The CHALKSPRAY is an eco-friendly chalk-based pigment spray that is ideal for outdoor temporary marking as well as for indoor studio artwork. Available in 10 powerful color shades that are deep matte and high covering. Montana CHALKSPRAY can be applied on various surfaces such as sidewalks, walls, cardboard or canvas. Depending on weather conditions and climate outdoor marking lasts between several days to several weeks. It fades quickly during extended periods of rain or in high traffic areas. The eco-friendly formula makes it ideal for gardens and landscaping. On non-porous surfaces like glass or metal the pigments can be removed easily. Removal from porous surfaces may take longer. Montana CHALKSPRAY impresses by its feel and look - the typical rough chalk effect.

CHALK HAS VERY SPECIAL AESTHETICS - AND MONTANA CHALKSPRAY BRINGS THOSE AESTHETICS INTO A SPRAY THAT WORKS ON ALMOST ANY SURFACE!

CHALKSPRAY 400ML

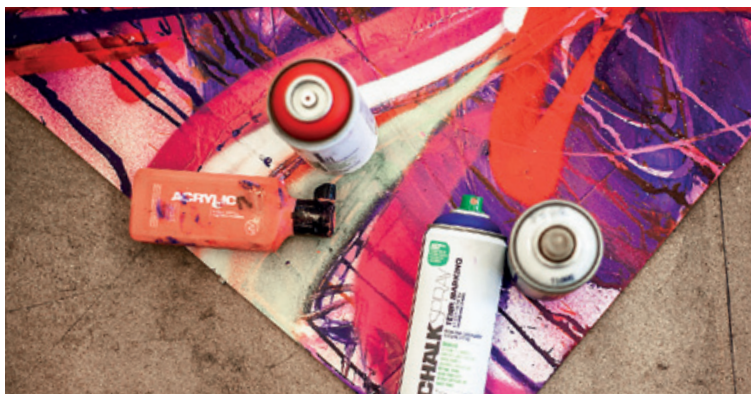

ECO-FRIENDLY CHALK PIGMENT PAINT

Eco-friendly chalk-based pigment spray that is ideal for outdoor temporary marking as well as for indoor studio artwork. The Montana CHALKSPRAY 400ml is available in 10 powerful chalk-based pigmented color shades that are deep matte and high covering:

Yellow	TNR: 376085	Violet	TNR: 376139	Black	TNR: 376221
Orange	TNR: 376092	Blue	TNR: 376153	White	TNR: 376238
Red	TNR: 376115	Turquoise	TNR: 376184		
Pink	TNR: 376122	Green	TNR: 376177		

Perfect as sidewalk chalk for events, sales actions, advertisement or exhibitions. Depending on weather conditions and climate outdoor marking lasts between several days to several weeks. Montana CHALKSPRAY works also well on canvas, cardboard, walls or other primed grounds due to its great coverage. The CHALKSPRAY will become permanent when sealed with Varnish (when used on a canvas i.e.). It also allows further application by brush, scraper or other tools. For clean and precise lines we recommend to use Montana LEVEL caps 3 to 6 (3 and 4 for fine and medium lines, 5 and 6 for wide lines and filling large areas).

**LIGHTUP

STORES DAYLIGHT
AND EMITS IN
DARKNESS

NIGHTGLOW SPRAY 400ML

LUMINESCENT EFFECT PAINT

Montana NIGHTGLOW is a high-grade acrylic quality which contains luminescent pigments that store light (absorbed energy) and emit the light in darkness. This luminescent effect is only visible in total darkness. The length of glowing time is dependent on the intensity of the light charge and thickness of the paint layer (it is recommended to apply multiple layers of NIGHTGLOW paint lacquer on a primed surface). The glowing effect is strongest immediately after charging the painted object and then it starts to fade. For indoor and outdoor applications. For best effect, use a strong light source to charge, then allow paint to glow in a completely dark environment. The effect spray is suitable for all smooth, rough or light responding primed surfaces such as metal, wood, hard plastics, primed carton, walls etc. It is recommended to seal the surface with Montana PRIMER or GOLD Shock WHITE 9100 to achieve best glow effects. Drying time can vary depending on substrate. Limited resistance to weathering, light and UV-influences. To improve UV-resistance seal with Montana VARNISH Gloss 400ml. Recommended to use with Montana Fat caps. Available as 400ml.

Luminescent-green

TNR: 376245

THE MONTANA **SPRAY** PAINT

HIGHEST QUALITY MADE IN GERMANY

Montana offers tools not only for the creative minds but also for professionals, especially since all ingredients are of highest quality. The famous Montana GOLD is known and appreciated for its wide color range excellent for fine art or mural painting. Combined with the new Montana TECH series or the ACRYLIC markers Montana GOLD proves to be multifaceted as well as versatile. The Montana BLACK can is the winterproof all-rounder spraycan beloved by artists for graffiti, thanks to its durability. For an ultimate urban street calligraphy experience the Montana ULTRA WIDE provides wide linework from 15 to 60 cm. Further the Montana WHITE series offers a budget-friendly highgloss finish to your street art project.

& EFFECT
SPRAYS

HIGHEST STANDARDS FOR THE BEST QUALITY

The lacquer of the new Montana GOLD consists of a special acrylic mixture. Only the finest ingredients and best pigments have been used for the development and production of the Montana GOLD, assuring the highest standard of quality. It can be combined with other acrylic lacquers as well as with the lacquer of the majority of other spray cans brands. Montana GOLD can also be applied with traditional brushes (or airbrush). Spray Montana GOLD lacquer into a small cup and apply the paint with traditional brushes when working on details or on smaller areas. Brushes or other tools can be cleaned easily with Montana ACETONE spray.

LOW PRESSURE & HANDLING

The low pressure system allows perfect handling. The level's of control that are able to be achieved with this can have never existed before. The Montana LEVEL caps were precisely developed to the new low pressure system allowing the most even and clean lines with the highest efficiency and accuracy. Spray widths from 0,4cm up to 25cm can be achieved depending on users skill and experience. For perfect results we recommend the new cap system in combination with the Montana GOLD.

WATCH
THE
VIDEO

MONTANA LEVEL CAP SYSTEM

The Montana Level caps were precisely developed for the low pressure system allowing the most even and clean lines with the highest efficiency and accuracy. Spray widths from 0.4cm up to 25cm can be achieved depending on the users skill and experience. Now with the new refined Level 1 Cap - cleaner and thinner than before! Level 1 to Level 6 are easily recognizable by cap color and shape - from thin to fat - light to dark!

USE FOR MIXED MEDIA TECHNIQUES

Montana GOLD spray paint is compatible for mixed media use with the Montana ACRYLIC paint. Colors carrying the same name will color match to the Montana ACRYLIC colors once sealed with the Montana VARNISH Gloss. When combined with Montana GOLD we recommend to apply ACRYLIC paint with a brush or airbrush for best results. Due to a different base between ACRYLIC paint and GOLD spray paint, for best color matching results apply a coat of Montana VARNISH Gloss spray or ACRYLIC Varnish Gloss for one even finish. Differences may appear with different substrates. Always test before use!

SHOCK COLOR SHADES

The Montana GOLD Shock range was developed as a mini Montana GOLD assortment with the only the most high covering colors within these color scales chosen. This system was also introduced as the water-based ACRYLIC Ink Markers and Refills, making it possible to use the strong, opaque colors in more mediums.

CLASSIC COLOR SHADES

Back in the days before manufacturers created high opacity spray paint for the specific use of graffiti art or Urban art, there were a few “classic” colors that were the preference of many street based artists. Normally chosen for their opacity or color impact, the Montana GOLD line has adopted a special place within the color range for these historical colors.

PROCESS COLOR SHADES

Inspired by the CMY color properties used in the printing industry, the CMY shades are powerful colors bound to draw attention.

P 1000 100% Yellow	TNR 285561	P 2000 100% Cyan	TNR 285578	P 3000 100% Magenta	TNR 285585
--------------------	------------	------------------	------------	---------------------	------------

FLUORESCENT COLOR SHADES

Famous for being able to glow under UV light. For best results we recommend fluorescent colors to be applied to pre-primed, dry white surfaces (eg. Shock White) to increase luminosity and improve coverage. Applying Montana VARNISH will offer greater UV protection however may hinder the fluorescent effect slightly. In general fluorescent colors are less lightfast and not resistant to the elements.

F 1000 Flash Yellow	TNR 283819	F 2000 Power Orange	TNR 283826	F 3000 Fire Red	TNR 283833
F 4000 Gleaming Pink	TNR 283840	F 5000 Flame Blue	TNR 283864	F 6000 Acid Green	TNR 283888

EFFECT & METALLIC COLOR SHADES

Chrome effects are achieved by having metallic pigment particles located on the surface. This is achieved by the lacquer remaining "open" so that light can shine and reflect off these particles. However this results in chrome EFFECT shades being less weather resistant and not abrasion proof. Finger marks may occur if handling chrome effect sprayed items. Applying Montana VARNISH will offer greater protection and seal the painted surfaces, however they make the paint appear less shiny and prevent it from reflecting light as efficiently.

M 1000 Silverchrome (EFFECT)	TNR 285912	M 2000 Copperchrome (EFFECT)	TNR 285936	M 3000 Goldchrome (EFFECT)	TNR 285943
M 1100 Silver Matt (METALLIC)	TNR 285929			M 3010 Gold Matt (METALLIC)	TNR 369759

TRANSPARENT BLACK & WHITE SHADES

Achieve greater depth and tonal variation with the use of Montana GOLD Transparent Black. This transparent shades allow users to enhance their artwork layer by layer while controlling the opacity through the paint application. Use Transparent White to create highlights or to give the effect of light exposed areas (milky glass effect).

COLOR SYSTEM

Re-developed and perfected, Montana BLACK offers a dynamic color range. With 187 matte color shades the range includes 7 Power colors as well as the metallic shades, Gold, Copper and Silverchrome. It also features TRUE colors that simulate CMY(K) values and special artist colors. A Selection of colors are also available in 150ml and 600ml (refer to color chart).

LACQUER AND VALVE NITRO-COMBINATION BASE

The Montana BLACK contains fast painting and layering optimized Nitro-Combination lacquer. The matte finish colors are fast drying and high covering. Only high quality ingredients and best pigments have been used for the development and production of the new Montana BLACK, assuring the highest standard of quality.

HIGH-PRESSURE

The high-pressure system allows for fast and perfect handling. Due to the high output of paint and the high pigment load Montana BLACK covers extremely well. In conjunction with the use of Montana spray caps, Montana BLACK enables users to apply the paint to large or small surface areas with accuracy and efficiency. Spray widths from 1cm to 30cm can be achieved depending on the user skill and experience.

MONTANA

THE MONTANA **BLACK** MARKERS

GERMAN MADE QUALITY INK MARKERS & REFILLS

The Montana BLACK Marker range offers several types of markers and inks such as the high-quality, alcohol-based Dye Ink that is permanent and UV-resistant. The refillable BLACK Dye Ink Markers as well as the EMPTY Markers are available in different sizes. The Line offers several carefully selected colors as Refills or pre-filled in a classic aluminum body – The sturdy Montana BLACK Dye Ink Marker. In contrast to „STRONG BLACK,, the other colors in the range are more translucent, which is a typical characteristic for classic alcohol-based dye ink that is a typical low-viscosity ink. All Markers are fully refillable and replacement nibs are available seperately. Highest quality made in Germany.

BLACK DYE-INK MARKER

HIGHEST QUALITY ALCOHOL-BASED DYE INK MARKERS

THE MONTANA BLACK DYE INK MARKER

The Montana BLACK alcohol-based Marker has 9 permanent and UV resistant Dye Ink colors. The Montana BLACK alcohol based Dye Ink is a low-viscosity ink. Each marker is filled with 20ml of Dye Ink and the range includes the super marking color, "STRONG BLACK". The ink is delivered through the markers felt tip by a refillable pump system valve and can be applied to almost all surfaces. All markers in the Montana BLACK Dye Ink Marker range are fully refillable and the tips are also replaceable. It's available in a 15mm Standard tip, an 8mm Round tip, and a 10mm Chisel tip.

MONTANA

THE MONTANA **SKETCHING** TOOLS

SKETCHLINER, DESIGNMARKER, NOTE- & SKETCHBOOKS

Every work of art starts with an idea – or a sketch. Starting with a quick draft, the Montana Pencil set will be your tool of choice. Likewise the Montana Sketchliner set provides the right size markertip to any sketch ranging from 0.1 to 1.2mm. Additionally the award-winning Alpha Markers prove to come in handy for any sketch that might require some color. For the perfect accessory the Montana Notebook line carries coated marker paper, illustration books, landscape notebooks, sketchbooks, the Montana black blackbook and the Montana blackbook now available in the landscape and portrait format.

MONTANA SKETCHLINER & PENCIL

ESSENTIAL SKETCHING TOOLS

THE MONTANA SKETCHLINER

Perfect suitable for fine, detailed works and lines. Containing an acid-free pigment ink on alcohol base, made in Japan. Waterproof & photocopy safe. Certified with the AP-Mark quality seal, the high qualitative ink guarantees a true black color. The nib is made out of strong synthetic and will not break up or fringe. Compatible with all Montana Acrylic Markers and Colors. The Sketchliner is available in six different sizes: 0.1mm, 0.2mm, 0.3mm, 0.5mm, 0.8mm & 1.2mm. Also available in a set.

THE MONTANA PENCIL SET

All good creative ideas need an origin. Often this origin starts its life in the form of a sketch, drawing or an outline of what the artist is setting out to achieve. The new Montana Pencil Set contains 6 x HB pencils that are perfect for the job. Not too hard and not too soft, the Montana Pencil Set's HB graded pencils offer ideal mark making and application. Made out of high quality non-toxic materials, the pencils are highly durable and have the classic matt black Montana design with silver embossing.

THE MONTANA ILLUSTRATION BOOK BEST OF #1 - #3

The urban landscape is vast and this edition of the Montana Illustration book covers all your favourite scenes from issues #1, #2 and #3. Ever wondered what it would be like to paint the famous Dutch bannana trains, that prime European rooftop spot you could never figure out how to get to or the much loved Los Angeles style elevated billboard, so you can do some advertising of your own? They are all there as well as some much loved classics such as busses, transporters and of course more trains. Produced with fine quality, 120 gsm paper, optimised for colouring and sketching, with additional blank pages for freestyle sketching. The hard cover Illustration Book Best of #1 - #3 is now also in a larger format measuring 26 x 17.5 cm / 10.2" x 6.9", spiral bound and ready for action. Be creative all over the world from the luxury of where ever you are.

ALPHA MARKER

DESIGN & BRUSH MARKER

ALPHA
DESIGN MARKER

ALPHA DESIGN Markers have two tips and an internal structure that gives it long life with a smooth texture. The Design Markers provide a variety of 144 color shades. ALPHA MARKER has been approved by ACMI, receiving the AP Mark for non-toxicity. The case lids are magnetic, for easy use, and the case lid can be opened conveniently and folded 45 degrees to the back so that you can stand the case up when you are working, allowing you to select the colors easily from it. (In 2008, the ergonomically designed marker body was awarded the WIN THE PIN-UP AWARDS, held by KAID: Korea Association of Industrial Designers)

ALPHA MARKER

DESIGN & BRUSH MARKER

ALPHA DESIGN MARKER

Alpha Design Markers have twin tips. One tip is a fine point for detailed work and the other is a broad chisel tip for filling larger areas and rendering. The internal structure of the marker allows long life with a smooth application. The Design Markers are available in 144 colors. Alpha marker have been approved by ACMI, receiving the AP Mark for non-toxicity.

The Alpha Marker cases are complimented with a magnetic closure for easy use. When opened, the case conveniently folds back at a 45 degree angle allowing it to stand, holding it's own weight. Users can easily select the colors they require. (In 2008, this was awarded the WIN THE PIN-UP AWARDS, held by KAID: Korea Association of Industrial Designers). Alpha is a registered member of the international Art Material Association (NAMTA) as well as of the US Art & Creative Materials Institute (ACMI).

The Alpha Design Marker is available as a Single Marker or in sets of 12, 24, 24, 36 and 60 A / B. It offers a variety of 144 color shades for creative and professional use.

THE MONTANA ACTION BAG

The Montana Action Bag Pack is not just a normal tote bag. You can easily transform it into a backpack: Just undo the snap of the carrying straps! Of course you can just retransform it into a normal bag doing it up again. The bag offers enough space for 12 cans and is made out of sturdy polypropylene.

Action Bag

TNR: 325960

THE MONTANA NYLON CANBAG

This nylon bag comfortably stores 15 cans upright however more cans are possible. You can store your caps in the discretely located inner zip-up pocket. The outer open pocket also allows space for blackbooks, sketches or markers to be neatly tucked away yet easily accessible. The final touches are two small recognisable dangerous goods logo's printed on one exterior side of the otherwise all black bag.
